Room 10 may be suitable for those with limited mobility, having grab rails by a low bath and grab rails by the toilet.

This form requires to be completed and a copy kept by the group leader and used for evacuation purposes.

Where a group has less than 30 members we would prefer you not to use all the rooms if possible. If you do not use all the rooms, please leave this form in the kitchen so that we can identify unoccupied rooms and not clean these rooms unnecessarily.
