Ministry to Seniors: Pastoring and Supporting

Churches are families from the youngest to the oldest
- We are interconnected

So this is not just for seniors, it's for everybody - You might become a carer today!

Churches provide fantastic support at the end of life via funerals
and bereavement support

But is our pastoral support as good in terms of Advanced Care
Planning for all?

This work is based on National Guidance I have produced for the
NHS and Social Care sector

NB. I'm not a Christian Leader, but a Leader who is a Christian!

Questions? In your pastoring and support do you know ..

What is a lasting power of attorney [property and affairs and/or health and welfare?]

What is a Court appointed deputy?

How to identify if somebody is a victim of a scam /fraud?

What does the new domestic abuse bill cover?

How to find good quality residential or domiciliary care?

HEARING · BECOMING · SERVING

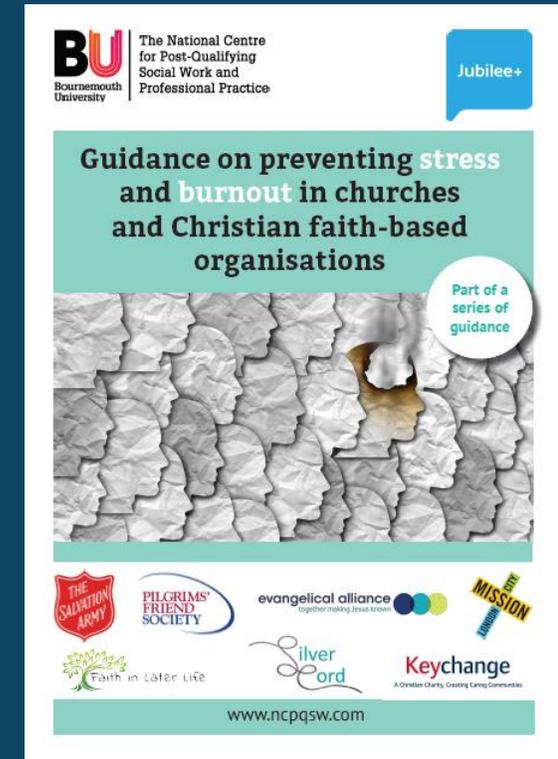

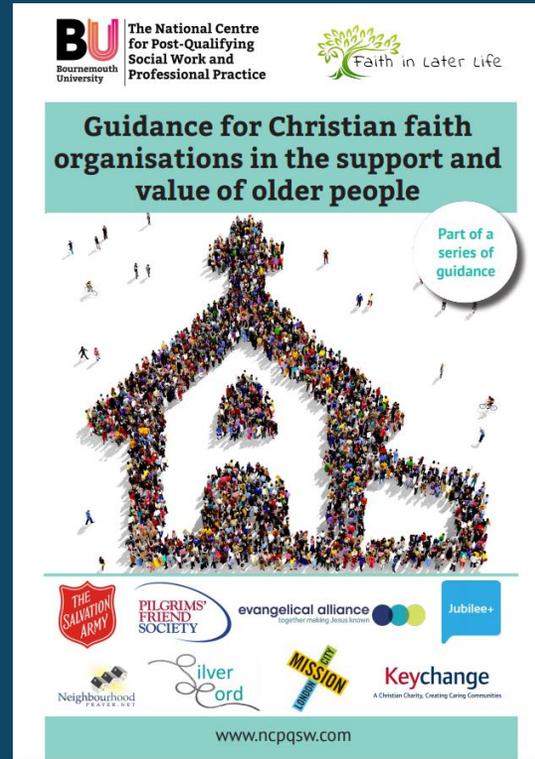

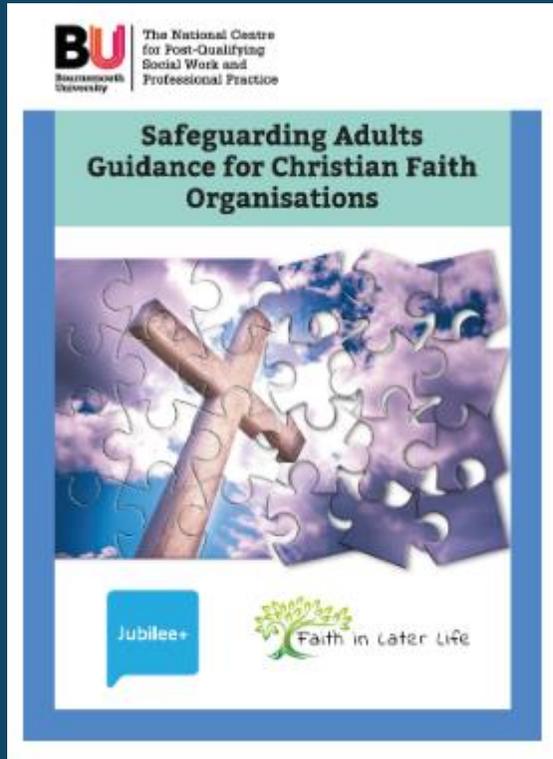

What is the Mental Capacity Act and its significance for helping people with dementia/brain injury?

The impact of loneliness and isolation on well being

Don't panic about, but do consider safeguarding adults issues i.e. read our guidance

These freely available resources will help guide you in all these areas [They are based on guidance that health and social care professionals use].

A major mission opportunity for the Church

- Society does not know how to fund or care for a demographically ageing society
- Loneliness is endemic - lonely people cry out for somebody to visit and share their lives with [the gift of flowers!]

Seniors are part of our own families, yet we often find our own families the hardest to share with
